The Florence Indians say that a party of the latter of the 20th of September survey party, engaged in making a road back at the big canyon below San Carlos. The deepest hole was 10 feet seven feet, and the rock is the hardest lime—all that could be desired for a foundation for a solid rock dam. When it is considered that the capacity of a reservoir at that point would be nearly three times that at the Florence Buttes, it will be readily understood that San Carlos will be the point selected by the government engineers. It would mean that three hundred thousand acres in the Casa Grande valley would be brought under cultivation instead of one hundred thousand.

All dyspeptic troubles are quickly cured by Kodol Dyspepsia Cure. It has cured thousands of cases and is curing them every day. Its ingredients are such that it can't be faking. Copper Queen Mining Co.
